Peladon Software Partners with Laserfiche[®]

Laserfiche 8[™] to integrate with Peladon Software's DocXP[™] document capture suite

SAN DIEGO, Calif., June 25, 2008 – Peladon Software, a prominent developer of automated capture and document processing solutions, today announced it has signed a Professional Developer Partnership[™] Program agreement allowing the integration of its complete line of DocXP[™] products with the Laserfiche 8[™] document management software suite.

Laserfiche[®] is an electronic document management system (EDMS) firm with an extensive, worldwide network of value-added resellers. Laserfiche[®] plans to promote the integration of DocXP[™] to their end-users and resellers through a variety of channels, such as bi-weekly webinars, the Laserfiche[®] user conference, newsletters, etc.

Peladon Software develops and markets an extensive line of automated document processing and data capture solutions, including the DocXP[™] document classification, automated redaction, data extraction and data verification software modules for the healthcare, banking & finance, education, legal, retail, insurance and government markets.

“The integration of DocXP[™] with Laserfiche 8[™] will greatly benefit end-users looking to automate manual data capture and streamline their operation. We believe our reseller community will have a very positive reaction to this integration,” said Alex Wilson, Product Manager at Laserfiche[®]. “We are very enthusiastic about the seamless integration of these two products and about our partnership with Peladon Software,” added Wilson.

“Partnering with Laserfiche[®] is a fantastic market opportunity for Peladon. Laserfiche[®] is a first-class organization with proven, leading-edge products. We look forward to providing Laserfiche's end-users and reseller community with a document capture solution that is tightly integrated with the workflow of Laserfiche 8[™],” said Noel Flynn, Chief Operating Officer of Peladon Software.

About Peladon Software

About Laserfiche

Laserfiche (www.laserfiche.com) creates simple and elegant document management solutions that help organizations run smarter. Since 1987, Laserfiche has helped more than 25,000 organizations—including state and local governments, financial services firms and healthcare providers—optimize business processes and reduce operating costs. Laserfiche captures and indexes all your organization's paperwork—from documents and faxes to e-mails and multimedia files—in a secure, central repository. A unified metadata model helps users classify information, while full-text search tools enable them to quickly find what they need. Laserfiche's open architecture and flexible API promote rapid integration with other Web- and Windows-based applications, allowing users to capture, manage and distribute information in diverse working environments.

Laserfiche software is distributed by a worldwide network of value-added resellers, who have extensive experience creating solutions that meet clients' specific business needs. In recognition of the outstanding training and support we provide our resellers, the Laserfiche VAR program has received a five-star rating from *VARBusiness* magazine.

About Laserfiche® Professional Developer Partnership™ Program

Launched in 2007, the Laserfiche Professional Developer Partnership (PDP) program provides the tools needed to integrate software applications with the leading document management solution. From comprehensive development tools to ongoing sales support, Laserfiche has designed its PDP program to provide software developers, resellers and integrators with the resources they need to successfully develop, complete and market integrations with Laserfiche.
