**Peladon Software Announces Reseller Agreement with VPCI**

*VPCI to market and resell Peladon's DocXP™ automated document processing and data capture suite.*

**SAN DIEGO, Calif., May 7th, 2010 – Peladon Software**, a prominent developer of document processing and automated information capture solutions, today announced that VP Consulting, Inc., one of the industry's top Value Added Resellers (VARs) and authorized Laserfiche™ provider, has signed an agreement to resell Peladon's complete suite of DocXP™ products.

VP Consulting specializes in electronic document solutions for clients in the government, commercial, education and industrial markets throughout the Pacific Northwest. The company designs and implements comprehensive, document imaging and management systems that are tailored to fit the unique business processes of its clients. It offers complete solutions including software, hardware, consulting, system design, support and training.

Peladon Software develops and markets an extensive line of automated document processing and data capture solutions, including the DocXP™ document classification, automated redaction, data extraction and data verification software modules for the healthcare, banking and finance, education, legal, retail, insurance and government markets.

"We are pleased to add Peladon's automated document processing suite to the line of products we represent. DocXP™ ideally complements the document management solutions VPCI already offers. We believe our clients will have the opportunity to further reduce expenses and increase efficiency with the implementation of Peladon's state-of-the-art, document processing and automated capture solutions," said Vicki Pattle, President and Owner of VPCI.

"VPCI and Peladon Software share a common commitment to customer satisfaction," said Noel Flynn, Chief Operating Officer of Peladon Software. "With this commitment comes the expectation that what you have to offer represents the best in the industry. We believe the DocXP™ software is the perfect complement to the suite of Document Management products and solutions offered by VPCI. Through our partnership, we hope that VPCI can help more customers with a broader range of document processing needs, potentially strengthening its competitive position," added Flynn.
