Peladon Software Announces Partnership with Premier Election Solutions

Peladon Software to collaborate with Premier Election Solutions, Inc., in document processing

SAN DIEGO, Calif., October 22, 2007 – Peladon Software, a prominent developer of automated capture and document processing solutions, today announced a strategic partnering relationship with Premier Election Solutions, Inc., developer and provider of the world's most advanced election systems.

Peladon Software is a supplier of an extensive line of document processing systems and automated information capture solutions, including **DocXP™**, document classification, data extraction and verification components.

With the objective of collaboration on a range of projects for Government, Banking and other financial markets, **Peladon Software** has already successfully delivered and deployed signature verification solutions to Premier Election Solutions.

“In the last couple of years we have witnessed an increased market awareness and adoption of automated document processing solutions. Premier is at the forefront of these developments. We are extremely pleased to add one of the world’s leading election systems companies such as Premier to our growing list of business partners,” commented Noel Flynn, Chief Operating Officer of **Peladon Software**. “We expect that our relationship with Premier will bring significant and lasting benefits to both companies and to Premier’s customers,” continued Mr. Flynn.
