

## **Peladon Software Partners with iKAN Software**

*iKAN Software to Resell Peladon Software's DocXP™ Data Capture Suite*

**SAN DIEGO, Calif., October 17, 2007 – Peladon Software**, a prominent developer of automated capture and document processing solutions, today announced that iKAN Software has signed an agreement to resell the company's DocXP™ product suite. iKAN Software is an innovative online document management provider and developer of the iKAN Virtual Document Center.

Peladon Software is the supplier of an extensive line of document processing systems and automated information capture solutions, including the DocXP™ document classification, data security, data extraction and verification software modules.

iKAN Software has many subscribers to the iKAN Virtual Document Center with measurable results for clients across many industries. The company plans to resell Peladon Software's DocXP™ products for their clients needing a document processing and data capture solution.

"iKAN Software delivers inventive document management solutions that improve operational efficiencies and customer service for their clients," said Noel Flynn, Chief Operating Officer of Peladon Software. "Our products as well as our organizational philosophies are highly complementary. We are extremely pleased to be affiliated with iKAN Software and look forward to working with everyone at the company," added Flynn.

"Peladon Software is an innovator within the data capture and document processing field," said Ed Amash, President and CEO of iKAN Software. "Peladon's commitment to building relationships with partners like iKAN Software has given us the ability to offer a suite of products that now includes an automated document processing and data capture solution. DocXP™ fills a gap in our product line, which I believe will benefit our clients in the very short term."
